EXPERIENCE

Digital ASIC (Application Specific Integrated Circuit) Design Intern/Co-op

Ciena

📅 2020 - 2020   📍 Ottawa, ON

Ciena is a networking systems, services and software company. Driven by a relentless pursuit of network innovation.

- Supported Ciena's ASIC design and verification team through debugging of subsystem level simulations.
- Assisted in development and support of Ciena's IP ASIC design and verification environment.
- Responsible for code coverage merging and analysis of various functional blocks of the RTL design. As well as designed scripts to aid in the overall efficiency of coverage merging.

Technical Sale Associate

Incredible Connection

📅 2017 - 2018   📍 Johannesburg, South Africa

Incredible Connection is a consumer electronics and IT retailer active in Southern Africa.

- Developed accounts by checking customer's buying history; suggesting related and new items; explaining their technical features.
- Used a consultative sales approach to understand the customers needs and recommend relevant offerings.
- Kept on top of changes to store products and promotions to maintain strong sales.

EDUCATION

BASc Electrical Engineering | BSc Computer Technology

University of Ottawa

📅 2015 - Ongoing   📍 Ottawa, ON

- Full scholarship

Ontario Secondary School Diploma

Southern Ontario College

📅 2013 - 2015   📍 Hamilton, ON

TRAINING / COURSES

TensorFlow & Machine Learning Course

Hosted by FreeCodeCamp

6+ hour TensorFlow 2.0 course covering machine learning topics such as: RNN's, Computer Vision, Deep Learning, Sentiment Analysis and Reinforcement learning

SKILLS

Python   Linux   UVM

Data Structure & Algorithms   Git

SystemVerilog   Design Verification

Machine Learning   Sentiment Analysis

INDUSTRY EXPERTISE

Python
